1. Important Instructions

Thank you for using eSecu FIDO2 Security Key!

Please read this manual before operating your eSecu FIDO2 Security Key (FIDO2 Security Key for short) and keep it for future reference.

2. Product Overview

eSecu FIDO2 Security Key is a hardware authenticator supporting FIDO2 standard and FIDO U2F standard, as well as HOTP algorithm. It can be used on FIDO2-enabled or U2F-enabled services and applications as a factor of two-factor authentication, multi-factor authentication or passwordless authentication, and as an OTP device to secure the network account that needs login protection.

3. Product Picture

The button has the following lighting states:

Steady white light: Insert the FIDO2 Security Key in the computer's USB port.

Flashing white light: The FIDO2 Security Key blinks white light when received an authentication request. Press the button to complete the sign-in.

4. The Basic Operation of FIDO2

4.1. Register (First Time Only)

- Enter the username and password to log in to any application that supports FIDO U2F/FIDO2.
- 2. Insert the FIDO2 Security Key in a USB-A port.
- 3. Add the FIDO2 Security Key to your account(s).

4.2. Signing-In (After Completing Registration)

- 1. Open the website you want to log in.
- 2. Enter your usual username and password (for U2F-enabled services).
- 3. Connect the registered FIDO2 Security Key to your computer.
- 4. Authenticate with a simple press of the button.

5. How to use FIDO2 Security Key with Microsoft for passwordless login

You need to use the Edge browser and Windows 10 operating system, and the system version must be 1809 and above.

5.1. Register the FIDO2 Security Key

1. Click "My Microsoft account" after signing in.

All Microsoft 🗸	Search 🔎	Cart 🛱	8

7. Usage of FIDO Manager and OTP

The Software used to configure the FIDO and OTP (TOTP/HOTP) is described in document of "Excelsecu Manager User Manual", you can refer to it for more details.

8 FAQ

8.1 How do I install the FIDO2 security key to my computer?

Answer: You don't need to install it, it's plug and play. It works with Windows, macOS, Linux, Chrome OS.

8.2 I have two gmail accounts, how many FIDO2 security keys do I need to protect two gmail account. Do I need 2 keys?

Answer: You can use one FIDO2 security key with multiple accounts, but that is not recommended. Regardless of if you're protecting one gmail account, or two - you should register multiple keys (if the service allows it). That way, if you lose your key, or it's damaged, or it's stolen, you will still have a backup key ready to use.

8.3 What should I do if I lost my FIDO2 security key?

Answer: Just go to the website your key already registered. On the 2-step verification tab or

similar tab, delete the device. Two FIDO2 security keys are recommended, one for normal use, the other for backup.

8.4 Does this FIDO2 security key have NFC capabilities?

Answer: No

8.5 Does this FIDO2 security key have Bluetooth capabilities?

Answer: No

8.6 What applications support FIDO2 security key?

Answer: The applications support FIDO[®] U2F/FIDO2 include but not limited to: Google, Microsoft, Facebook, Dropbox, GitHub, Salesforce, Dashlane, etc.

9 Product Specs
